WILDFLOWER

BRENHAM, TEXAS

Awake Photography

Among the wild bluebonnets in the hill country of Texas, this nature loving bride celebrates her union with her long time love and dearest friends. From floral crowns and floral place settings to every detail in between, bright colors make a statement to enhance the rolling wildflower fields.

The bride's style and love for color is seen in the gorgeous letterpress invitations and the life like sugar flowers perfectly placed on the 3 tiered cake. A couple of four legged friends joined in on the celebration, including a two week old foal. Everything is bigger in Texas, including the hearts of this bride and groom who were in awe of their perfect day.
